With our engineering background, we are in the unique position of being able to cover the five basic requirements for this type of work 'in house'.

- 1. DESIGN** – Meeting the requirements of the individual, yet staying within the legislative guidelines.
- 2. DRAFTING** – Engineering Plans, Reports & Correspondence.
- 3. MANUFACTURE** - Full engineering workshop facilities.
- 4. INSTALLATION** – Fitment of relevant componentry and/or equipment.
- 5. APPROVAL** – Liaise with Queensland Transport re: State & Federal requirements, fitment of Modification Plate and issue of 'Certificate of Modification' for the work carried out, if required.
